

Morse Code Extra Credit

Samuel F. B. Morse perfected the telegraph – a device that could send information over wires across great distances. In many ways the technology of the telegraph brought people from different areas of the country closer together much like the telephone. Your assignment is to send a message using the Morse Code alphabet to me. The message must be at least 25 words. Please number your words under the dashes and dots so I can check quickly for completion. Remember to keep the message appropriate...something you wouldn't mind an administrator or parent reading. Enjoy!
